We also use technical and operational security measures to protect personal data against accidental or intentional manipulation, loss, destruction or access by unauthorised persons. We regularly review and modernise these precautions.

In such cases, we comply with the legal requirements and, in particular, conclude appropriate contracts or agreements with the recipients of your data to protect your data.

We transfer personal data to other companies within our group of companies or grant them access to this data for administrative purposes. This transfer of data is based on our legitimate business and economic interests or takes place if it is necessary to fulfill our contractual obligations or if the consent of the data subjects or legal permission has been obtained.

Do we transfer data to third countries?

In order to use our digital services, it may be necessary to transfer certain personal data to third countries, i.e. countries where the GDPR does not apply. However, we only allow your data to be processed in a third country if the specific requirements of Art. 44 ff. GDPR are met and thus an adequate level of data protection is guaranteed in that country. This means that the

third country must either have an adequacy decision by the European Commission or suitable safeguards in accordance with Art. 46 GDPR or one of the conditions of Art. 49 GDPR. **Unless otherwise stated below, we use the currently valid [standard contractual clauses](<https://eur-lex.europa.eu/legal-content/DE/TXT/HTML/?uri=CELEX:32021D0914&from=DE> “current version of the standard contractual clauses”)** for the transfer of personal data to processors in third countries.

How do we secure the data?

In order to protect your privacy and ensure a level of protection appropriate to the risk, we take technical and organizational measures in accordance with legal requirements, taking into account the state of the art, implementation costs, and the nature, scope, circumstances, and purposes of processing, as well as the varying likelihood and severity of threats to the rights and freedoms of natural persons. These measures ensure the confidentiality, integrity, availability, and resilience of your data. This includes, among other things, the use of recognized encryption methods (SSL or TLS) and pseudonymization.

However, we would like to point out that, due to the structure of the Internet, it is possible that the rules of data protection and the above-mentioned security measures may not be observed by other persons or institutions outside our area of responsibility. In particular, unencrypted data disclosed, e.g., by email, may be read by third parties. We have no technical influence on this.

When do we delete the data?

We delete or anonymize your personal data as soon as it is no longer required for the purposes for which we collected or used it.

However, we may still need to store your data until the expiry of the retention obligations and periods imposed by the legislator or supervisory authorities, which may arise from the German Commercial Code, the German Fiscal Code, and the German Money Laundering Act (usually 6 to 10 years). In addition, we may retain your data until the expiry of the statutory

limitation periods (i.e., usually 3 years, but in individual cases up to 30 years) if this is necessary for the assertion, exercise, or defense of legal claims. After that, the relevant data will be deleted.

What rights do you have?

How we make our content available to you

Cookies and similar technologies

If cookies, device identifiers, or other personal data are stored or accessed on your device for processing purposes, this is done on one of the legal bases of Art. 6 GDPR.

In order to be able to provide the telemedia service you have expressly requested, we also take into account the provisions of Section 25 of the German Telecommunications Digital Services Data Protection Act (TDDDG), in particular the requirement under Section 25 (2) No. 2 TDDDG.

You can find an overview of the technologies used under Privacy settings.

Types and functions of cookies

Cookies are text files that contain data from visited websites or domains and are stored by a browser on users' devices. A cookie primarily serves to store information about a user during or after their visit to an online offering. The stored information may include, for example, language settings on a website, login status, a shopping cart, or video interactions. The term “cookies” also includes other technologies that perform the same functions as cookies (e.g., when user information is stored using pseudonymous online identifiers, also known as “user IDs”).

There are the following types of cookies and functions:

- **Temporary cookies (also known as session cookies):** Temporary cookies are deleted at the latest after a user leaves an online offering and closes their browser.
- **Permanent cookies:** Permanent cookies remain stored even after the browser is closed. This allows, for example, the login status to be saved or preferred content to be displayed directly when the user visits a website again. Similarly, the interests of users, which are used for reach measurement or marketing purposes, can be stored in such a cookie.
- **First-party cookies:** First-party cookies are set and used by us to process user information.
- **Third-party cookies:** Third-party cookies are mainly used by advertisers (so-called third parties) or other partners to process user information.

- **Strictly necessary (also: essential or necessary) cookies:** These cookies ensure functions without which these digital offerings could not be used as desired. They may be absolutely necessary for the operation of a website, for example to store logins or other user entries, or for security reasons.
- **Analysis and statistics cookies:** These cookies enable us to analyze the use of our digital offerings, in particular to measure reach—i.e., clicks, visits, and visitor numbers. The aim is to statistically determine the number of visits and visitors and their surfing behavior (duration, origin) and thus obtain market-wide comparable values. The information collected is evaluated in aggregate form in order to derive improvements and optimizations for our products.
- **Marketing and personalization cookies:** Cookies are also used to store a user's interests or behavior (e.g., viewing certain content, using functions, etc.) in a user profile. Such profiles are used, for example, to display content to users that corresponds to their potential interests. This process is also referred to as “tracking,” i.e., tracking the potential interests of users. If we use cookies or tracking technologies, we will provide separate information about this in our privacy policy or when obtaining consent.

Technical provision and security

When our offer is used, we automatically employ essential technologies and process the following information:

- Information about the accessing device and the software used
- Date and time of access
- Websites from which the user accesses our website or which the user visits via our website
- IP address

The collection of these logs and their temporary storage and processing are necessary to ensure system security and integrity (in particular to ward off and defend against attempts at attack or damage) and are carried out in accordance with our legitimate interest (§ 25 (2) No. 2 TDDDG, Art. 6 (1) f GDPR).

The storage period for this log data is usually seven days; for reliable detection of AI bots, it is 30 days. From this point on, this specific server log

data is anonymized based on our legitimate interest in statistical evaluation to assess AI bots and their impact on our content (Art. 6 (1) f GDPR).

The legal basis for the aforementioned data processing is our legitimate interest pursuant to Art. 6 para. 1 sentence 1 lit. f) GDPR.

Essential technology

The following tools and cookies are strictly necessary technologies, i.e., essential for providing our services as requested by the user.

The legal basis for the data processing described below is our legitimate interest pursuant to Art. 6 (1) (f) GDPR.

Google Tag Manager

The Google Tag Manager service is an organizational tool that enables us to control services. The tool only uses the IP address to establish a connection to the server and to function technically. Otherwise, no personal data is processed by the tool itself. Tag Manager ensures that other services are only executed if the conditions (tags) specified in Tag Manager are met. This allows us to ensure, for example, that tools requiring consent are only loaded after you have given your consent. Tag Manager does not access the data processed by the tools.

Consent management

In order to obtain and store your consent under data protection law, we use the consent management platform from Sourcepoint (Sourcepoint Technologies, Inc., 228 Park Avenue South, #87903, New York, NY 10003-1502, United States). This platform uses strictly necessary cookies to query the consent status and thus display the corresponding content.

The data is stored for a maximum of 13 months.

Cookie	Purpose	Duration	Type
consentUUID	UniqueUserID to store the	12 months	Cookie

Cookie	Purpose	Duration	Type
	user's consent status		
_sp_su	Identification of users for sampling consent rates reporting	12 months	Cookie
_sp_user_consent	UniqueUserID to retrieve the user's consent status stored in our database if necessary	Unlimited	Local storage
_sp_local_state	Determines whether a user has seen the consent banner so that it is only shown once	unlimited	local storage
_sp_non_keyed_local_state	Information about the metadata and the user's UniqueUserID	unlimited	local storage

Embeds

We use embeds, i.e., embedded content, to offer you interesting content. The respective embedding is carried out using a technical process known as framing. Framing involves simply inserting a provided HTML link into the code of a website to create a display frame on our pages, enabling the content stored on the servers of the third-party platform to be played.

This third-party content is displayed to you with your consent (Art. 6 (1) (a) GDPR).

Some of this content comes from social networks or other companies, including those in the USA. By integrating their content, cookies and similar technologies may be used by them and data may be transferred to them, including to the USA (e.g., your IP address, browser information, cookie ID, pixel ID, page accessed, date and time of access). Details on the integrated content of the individual networks or these companies, which is stored on their servers and for the provision of which your IP address is transmitted to these companies, as well as on the data processing carried out by these companies, which may also include advertising purposes, can be found in the following lines.

How we optimize our products

Further development of user-friendliness

We use cookies and tracking tools to optimize our digital offerings based on your usage. To do this, we measure the development of reach and the use of content and functions, and use A/B testing to determine which variants users prefer.

Google Analytics

Google Analytics

We use Google Analytics (Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland) to measure and analyze the use of our online offering on the basis of a pseudonymous user identification number. This identification number does not contain any unique data such as names or

email addresses. It serves to assign analytics information to a device in order to determine which content users have accessed within one or more usage processes, which search terms they have used, whether they have accessed this content again, or how they have interacted with our online offering. The time and duration of use are also stored, as well as the sources of users who refer to our online offering and technical aspects of their end devices and browsers. In the process, pseudonymous profiles of users are created with information from the use of different devices, and cookies may be used.

Google Analytics does not log or store individual IP addresses for EU users. However, Analytics provides approximate geographic location data by deriving the following metadata from IP addresses: city (and the derived latitude and longitude of the city), continent, country, region, subcontinent (and ID-based counterparts). For EU traffic, IP address data is used exclusively for this derivation of geolocation data before it is immediately deleted. It is not logged, is not accessible, and is not used for any further purposes. When Google Analytics collects measurement data, all IP queries are carried out on EU-based servers before the traffic is forwarded to Analytics servers for processing. The retention period for the data is 14 months (this concerns data at user and event level). Aggregated data is anonymized and is not deleted.

Google is our processor, with whom we have concluded the agreements required for this purpose. We have also taken measures to ensure appropriate and adequate safeguards for the protection of personal data in the context of transfers to third countries by concluding EU standard contractual clauses and, where necessary, implementing additional measures to protect the rights of data subjects.

The legal basis for data processing is your consent in accordance with Art. 6 para. 1 lit. a) GDPR.

When you contact us

Contacting us

When you contact us, we only collect personal data (e.g. name, e-mail address, telephone number) if you provide it to us voluntarily. This information is expressly provided on a voluntary basis. The purpose of processing your data is to process and respond to your enquiry. This is also our legitimate interest in data processing in accordance with Art. 6 para. 1 sentence 1 lit. f) GDPR.

In the case of a telephone enquiry, your data will also be processed by telephone applications and in some cases also via a voice dialogue system in order to support us in the distribution and processing of enquiries.

We will delete your data that we have received in the course of contacting you as soon as your request has been fully processed and no further communication with you is required or requested by you.

Kontaktformulare

Formular - Mustermappe

Sie haben die Möglichkeit durch dieses Formular Druckmuster anzufordern. Die uns auf diese Weise übermittelten personenbezogenen Daten werden wir zur Vertragsanbahnung, Vertragserfüllung, Vertragsdurchführung sowie zur Vertragspflege verwenden gemäß Art. 6 Abs. 1 S. 1 lit. b DSGVO.

Formular - Preisanfrage

Über diese Formular können Sie eine Sonderanfrage an uns zu stellen. Die uns auf diese Weise übermittelten personenbezogenen Daten werden wir zur Vertragsanbahnung, Vertragserfüllung, Vertragsdurchführung sowie zur Vertragspflege verwenden gemäß Art. 6 Abs. 1 S. 1 lit. b DSGVO.

Google reCaptcha

We use Google reCaptcha to determine whether a human or a computer is making a particular entry, for example when logging in or filling out contact or newsletter forms. Google (Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland) uses the following data to check whether you are a human or a computer: IP address of the device used, the website you are

visiting and on which the captcha is integrated, the date and duration of the visit, the identification data of the browser and operating system type used, the Google account if you are logged in to Google, and mouse movements on the reCaptcha areas. Based on this data, reCaptcha analyzes your actions on the website and evaluates them with a score between 0 and 1. The lower this value is, the more likely reCaptcha estimates that the respective user is a bot and therefore not a human.

The legal basis for the data processing described is your consent in accordance with Art. 6 (1) (a) GDPR. We use reCaptcha solely to ensure the security of our websites, to protect ourselves from automated entries (such as bot attacks), and to ensure exclusively private, non-commercial use by human users.

You can find an option to revoke your consent in our privacy settings.

When you request quotes

Ordering products

If you order one of our offers or products, we need your address, contact and communication data as well as your bank and, if applicable, credit card data when the contract is concluded.

The processing of this data is necessary for the initiation or fulfilment of the contract (Art. 6 para. 1 sentence 1 lit. b GDPR).

After termination of the contract, we delete your data or block it, unless we are legally obliged to retain this data. The deletion usually takes place after ten years at the latest.

Payment

In order to offer you various payment functions, we use software from service providers who support us in processing the payment transaction. The software also manages transactions and controls access control, billing,

the checkout process, invoice dispatch, and payment transactions. It also supports our user, product, and price management. In doing so, we process your personal master data (e.g., name, address data), your communication data (e.g., email), order data, contract billing and payment data, and our planning and control data.

The legal basis for this is the fulfillment of the contract (Art. 6 (1) (b) GDPR) and our legitimate interest in proper and functioning payment processing (Art. 6 (1) (f) GDPR).

Payment processing PayPal

At your request, you can use the services of PayPal (PayPal (Europe) S.à r.l. et Cie, S.C.A., 22-24 Boulevard Royal, L-2449 Luxembourg) for payment. For this purpose, we pass on your payment data (total amount of the order, reference on the PayPal account) to PayPal on the basis of Art. 6 para. 1 sentence 1 lit. b) GDPR. The processing of data for payment with PayPal is necessary for the fulfilment of the contract.

PayPal collects information about the transaction as well as other information associated with the transaction, such as the amount sent or requested, the amount paid for products or services, information about the merchant, including information about the means of payment used to carry out the transaction, device information, technical usage data and location data. In the case of a PayPal payment, we may see your data in our PayPal account.

With PayPal Express Checkout, you do not have to re-enter order information or credit card or address details, as these are transferred directly by PayPal.

PayPal reserves the right to carry out an identity and credit check via credit agencies under certain circumstances. Further information on PayPal's data protection can be found [here](#).

Credit assessment

Profiling, i.e. automated data processing with the aim of evaluating certain personal aspects, only takes place to check creditworthiness in the course of digital subscription orders in connection with a terminal device.

Prior to transactions with an economic risk, we would like to be able to assess as well as possible whether the payment obligations entered into can be met. This constitutes our legitimate interest in the processing of your data, so that the legal basis is Art. 6 para. 1 sentence 1 lit. f) GDPR.

By providing information and using so-called probability values, CRIF GmbH supports us in making decisions and helps us to process everyday (goods) credit transactions quickly.

This involves making a forecast of future events based on collected information and past experience. CRIF GmbH calculates the probability values primarily on the basis of the information stored by CRIF GmbH about a data subject, which is also shown in the information pursuant to Art. 15

GDPR. Address data is also used. Based on the entries stored for a person and the other data, an assignment is made to statistical groups of persons who have shown similar payment behaviour in the past. The method used is known as "logistic regression" and is a well-founded mathematical-statistical method for predicting risk probabilities that has been tried and tested in practice for many years.

The following data is used by CRIF GmbH to calculate the score, although not every type of data is included in every individual score calculation: Date of birth, gender, shopping basket value, address data and length of residence, previous payment defaults, public negative features such as non-disclosure of assets, creditor satisfaction excluded, creditor satisfaction not proven, debt collection proceedings and debt collection monitoring proceedings. CRIF GmbH itself does not make any decisions, it merely provides us with information to help us make decisions. The risk assessment and evaluation of creditworthiness is carried out solely by us, as only we have a wealth of additional information at our disposal.

You can request information about your personal data stored by CRIF at any time: CRIF GmbH, Victor-Gollancz-Str. 5, 76137 Karlsruhe and [here](#) for further information on data protection.

When we advertise our products

Direct marketing

We also use your contact data beyond contract-related use for advertising purposes. This is only done if you have expressly consented (Art. 6 para. 1 lit. a) GDPR) or on the basis of our legitimate interest in a personalised customer approach or direct advertising (Art. 6 para. 1 lit. f) GDPR), for example for information about the same and similar products of our company (Section 7 para. 3 UWG).

If you no longer wish to receive advertising, you can withdraw your consent or object to advertising at any time.

The data processed by us will be deleted as soon as they are no longer required for their intended purpose, you have objected to the advertising and the deletion does not conflict with any statutory retention requirements.

Marketing for own products

In order to show you adverts for our own products, we use the services of advertising partners or cooperate with advertising partners and advertising networks (remarketing). These use cookies, pixels or similar technical means to display and analyse advertisements.

Adverts can be adapted to the respective user, for example by using information from the browser on usage (such as pages visited, visiting times, length of stay). User-specific adverts are also possible. In addition, analyses of reach or for billing purposes can be carried out in pseudonymised form. The details of the services used, co-operation partners and individual objection options are presented below.

The legal basis for data processing is your consent in accordance with Art. 6 para. 1 lit. a) GDPR.

You can obtain an overview of all the tools and cookies we use as well as a cancellation option by clicking on Data protection settings.

Google Ads advertising and remarketing

To draw attention to our offers, we place adverts in the Google search network and advertising banners in the Google display network (banners on third-party websites) and use the conversion measurement and remarketing of Google Ads and Analytics. We can combine adverts with search terms or use individual adverts to advertise products and services that you have viewed on our site. With Ads remarketing lists, we can optimise search and display campaigns if you have already visited our site. With conversion measurement, we see the success of interest-based advertising in the Google

search network and advertising banners in the Google display network (banners on third-party websites) based on the analysis of user behaviour for more targeted advertising.

For this interest-based advertising, Google analyses your user behaviour with cookies that are set when you click on ads or visit our websites. We and Google then receive information that you have clicked on an advert and have been forwarded to us. Based on these evaluations, we can recognise which of the advertising measures used are particularly effective and can optimise them as a result.

The statistics that Google provides us with include the number of users who have clicked on one of our adverts and show which of our websites you have been redirected to. We can also target you more specifically if you have already visited our website. We can also track which search terms were clicked on particularly often and which adverts lead to the purchase of a subscription, for example.

Due to the marketing tools used, your browser automatically establishes a direct connection with the Google server. We have no influence on the scope and further use of the data collected by Google through the use of this tool and therefore inform you according to our level of knowledge: Through the integration of Ads Advertising, Google receives the information that you have called up the corresponding part of our website or clicked on an advert from us. If you are registered with a Google service, Google can assign the visit to your account. Even if you are not registered with Google or have not logged in, it is possible that the provider will find out your IP address and store it.

You can also find more information on this in the notes on website statistics and in the data protection provisions of [Google](#).

You can prevent this technology by disabling the use of cookies via your browser settings, deselecting individual types of ads in Google's ad settings, disabling interest-based ads on Google or disabling cookies from advertising providers with the help of the respective deactivation help of the network advertising initiative. We and Google will then only receive statistical information on how many users have visited a page and when. This can only be prevented by appropriate browser extensions.

Conversion measurement

To find out whether and how effective our adverts are for our own products, we use conversion measurement by embedding a conversion tracking tag or code snippet in our digital products. When you view our adverts, a temporary cookie is stored on your computer or mobile device. As soon as you complete an action, our system recognises the cookie and we record a conversion.

The legal basis for data processing is your consent in accordance with Art. 6 para. 1 lit. a) GDPR.

Microsoft Advertising Conversion

We use “Microsoft Advertising Conversion” technology, specifically conversion tracking. Microsoft Advertising Conversion Tracking is an analytics service provided by Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399, USA. If you click on an ad placed by Microsoft, a conversion tracking cookie is stored on your computer. If you visit certain pages on our website while the cookie is still valid, Microsoft and we can determine that you clicked on a specific ad and were redirected to that page.

The data collected using the conversion cookie is used to generate conversion statistics for Microsoft Advertising Conversion customers who use conversion tracking. We are informed of the number of users who clicked on an ad and were subsequently redirected to a page tagged with a conversion tracking tag. We do not receive any information that can be used to personally identify users.

You can view Microsoft’s privacy policy regarding the handling of collected data at [this link](#). You can disable Microsoft Advertising Conversion at any time [here](#).

The legal basis for data processing is your consent in accordance with Art. 6 para. 1 lit. a) GDPR.

Newsletter

You receive newsletters from us only if you have explicitly subscribed to them by providing your name and email address. The email address

provided is verified by means of a confirmation email (“double opt-in procedure”). We process these personal data on the basis of your consent pursuant to Article 6 (1) (a) GDPR.

If you have given your consent, we analyse your clicks in newsletters using so-called tracking pixels, i.e. invisible image files. These are assigned to your email address and linked to a unique ID in order to clearly attribute clicks in the newsletter to you. The usage profile is intended to help tailor the newsletter offering to your interests. We record when you read newsletters and which links you click, and we use this to infer an interest profile.

You can unsubscribe from any newsletter at any time and withdraw your consent to its dispatch and analysis – however, you will then no longer receive the newsletter. For this purpose, an appropriate link is included in every newsletter.

Your data are deleted after you unsubscribe from the newsletter at the end of the year in which you cancelled your subscription.

This data includes the total number of page views, page activities and data and interactions provided by visitors. This data is processed and made available by the social networks. We have no influence on the generation and presentation of this data.

Your personal data is also processed for market research and advertising purposes. For example, it is possible that user profiles are created based on

your usage behaviour and the resulting interests. This allows, among other things, adverts to be placed within and outside the platforms that presumably correspond to your interests. Cookies are usually stored on your computer for this purpose. Irrespective of this, data that is not collected directly from your end devices may also be stored in your user profiles. Data is also stored and analysed across devices; this applies in particular, but not exclusively, if you are registered as a member and logged in to the respective platforms.

We do not collect or process any other personal data.

The processing of your personal data by us is based on our legitimate interests in effective information and communication pursuant to Article 6 (1) sentence 1 (f) GDPR.

If you are asked to give your consent to data processing, i.e. if you declare your agreement by confirming a button or similar (opt-in), the legal basis for the processing is Article 6 (1) sentence 1 (a) and Article 7 GDPR.

If you are a member of a social network and do not want the network to collect data about you via our presence and link it to your stored member data with the respective network, you must

- log out of the respective network before visiting our fan page,
- delete the cookies stored on your device, and
- close and restart your browser.

After you log in again, however, you will once more be recognisable to the network as a specific user.

In total, you have the following rights in relation to the processing of your personal data:

right of access; right to rectification; right to erasure; right to restriction of processing; right to object; right to data portability; right to lodge a complaint with the competent data protection authority about unlawful processing of your personal data.

As we do not have full access to your personal data, you should contact the providers of the social media platforms directly in order to exercise your data subject rights, since they each have access to the personal data of their users and can take appropriate measures and provide information.

If you nevertheless require assistance, we will of course do our best to support you. You can find our contact details [here](#).

For a detailed description of the respective processing activities and the options for withdrawing consent, we refer you to the information linked below.

Trusted Shops

Trusted Shops Trustbadge

Zur Anzeige unseres Trusted Shops Gütesiegels und der gegebenenfalls gesammelten Bewertungen sowie zum Angebot der Trusted Shops Produkte für Käufer nach einer Bestellung ist auf dieser Webseite das Trusted Shops Trustbadge eingebunden.

Das Trustbadge und die damit beworbenen Dienste sind ein Angebot der Trusted Shops GmbH, Subbelrather Str. 15C, 50823 Köln. Das Trustbadge wird im Rahmen einer Auftragsverarbeitung durch einen CDN-Anbieter (Content-Delivery-Network) zur Verfügung gestellt. Die Trusted Shops GmbH setzt auch Dienstleister aus den USA ein. Ein angemessenes Datenschutzniveau ist sichergestellt. Weitere Informationen zum Datenschutz der Trusted Shops GmbH finden Sie dort.

Bei dem Aufruf des Trustbadge speichert der Webserver automatisch ein sogenanntes Server-Logfile, das auch Ihre IP-Adresse, Datum und Uhrzeit des Abrufs, übertragene Datenmenge und den anfragenden Provider (Zugriffsdaten) enthält und den Abruf dokumentiert. Einzelne Zugriffsdaten werden für die Analyse von Sicherheitsauffälligkeiten in einer Sicherheitsdatenbank gespeichert. Die Logfiles werden spätestens 90 Tage nach Erstellung automatisch gelöscht.

Weitere personenbezogene Daten werden an die Trusted Shops GmbH übertragen, wenn Sie sich nach Abschluss einer Bestellung für die Nutzung von Trusted Shops Produkten entscheiden oder sich bereits für die Nutzung

registriert haben. Es gilt die zwischen Ihnen und Trusted Shops getroffene vertragliche Vereinbarung. Hierfür erfolgt eine automatische Erhebung personenbezogener Daten aus den Bestelldaten. Ob Sie als Käufer bereits für eine Produktnutzung registriert ist, wird anhand eines neutralen Parameters, der per kryptologischer Einwegfunktion gehashten E-Mail-Adresse, automatisiert überprüft. Die E-Mail Adresse wird vor der Übermittlung in diesen für Trusted Shops nicht zu entschlüsselnden Hash-Wert umgerechnet. Nach Überprüfung auf einen Match, wird der Parameter automatisch gelöscht.

Dies ist für die Erfüllung unserer und Trusted Shops' überwiegender berechtigter Interessen an der Erbringung des jeweils an die konkrete Bestellung gekoppelten Käuferschutzes und der transaktionellen Bewertungsleistungen gem. Art. 6 Abs. 1 S. 1 lit. f DSGVO erforderlich. Weitere Details, auch zum Widerspruch, sind der oben und im Trustbadge verlinkten Trusted Shops Datenschutzerklärung zu entnehmen.

E-Mails zur Bewertungserinnerung

Sofern Sie uns hierzu während oder nach Ihrer Bestellung Ihre ausdrückliche Einwilligung gemäß Art. 6 Abs. 1 S. 1 lit. a DSGVO erteilt haben, übermitteln wir Ihre E-Mail-Adresse an die Trusted Shops GmbH, Subbelrather Str. 15c, 50823 Köln (www.trustedshops.de), damit diese Ihnen eine Bewertungserinnerung per E-Mail zusendet.

Diese Einwilligung kann jederzeit durch eine Nachricht an die unten beschriebene Kontaktmöglichkeit oder direkt gegenüber Trusted Shops widerrufen werden.

Bei einem bestehenden Mitgliedschaftsvertrag erfolgt die Zusendung von Bewertungsaufforderungen als Gegenleistung für die kostenlose Mitgliedschaft, und ist somit fester Bestandteil des Mitgliedschaftsvertrages. Die Datenverarbeitung ist in diesen Fällen für die Erfüllung des Vertrages erforderlich und stützt sich folglich auf Art. 6 Abs. 1 S. 1 lit. b DSGVO.

When you contact us

Contacting us

When you contact us, we only collect personal data (e.g. name, e-mail address, telephone number) if you provide it to us voluntarily. This information is expressly provided on a voluntary basis. The purpose of processing your data is to process and respond to your enquiry. This is also our legitimate interest in data processing in accordance with Art. 6 para. 1 sentence 1 lit. f) GDPR.

In the case of a telephone enquiry, your data will also be processed by telephone applications and in some cases also via a voice dialogue system in order to support us in the distribution and processing of enquiries.

We will delete your data that we have received in the course of contacting you as soon as your request has been fully processed and no further communication with you is required or requested by you.

Videokonferenzen

1. Microsoft Teams

Wir nutzen das Tool „Microsoft Teams“, um Telefonkonferenzen, Online-Meetings, Videokonferenzen und/oder Web-Konferenzen durchzuführen (nachfolgend: „Online-Meetings“). „Microsoft Teams“ ist ein Service der Microsoft Corporation (Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399, USA). Wenn wir Online-Veranstaltungen aufzeichnen wollen, werden wir Ihnen das vorab transparent mitteilen und – soweit erforderlich – um eine Zustimmung bitten. Die Tatsache der Aufzeichnung wird Ihnen zudem in der MS-Teams-App angezeigt.

Hinweis: Soweit Sie die Internetseite von „Microsoft Teams“ aufrufen, ist der Anbieter von „Microsoft Teams“ für die Datenverarbeitung verantwortlich. Ein Aufruf der Internetseite ist für die Nutzung von „Microsoft Teams“ jedoch nur erforderlich, um sich die Software für die Nutzung von „Microsoft Teams“ herunterzuladen.

Wenn Sie die „Microsoft Teams“-App nicht nutzen wollen oder können, können Sie „Microsoft Teams“ auch über Ihren Browser nutzen. Der

Dienst wird dann insoweit auch über die Website von „Microsoft Teams“ erbracht.

Bei der Nutzung von „Microsoft Teams“ werden verschiedene Datenarten verarbeitet. Der Umfang der Daten hängt dabei auch davon ab, welche Angaben zu Daten Sie vor bzw. bei der Teilnahme an einem „Online-Meeting“ machen.

Folgende personenbezogene Daten sind Gegenstand der Verarbeitung:

- Angaben zum Benutzer: z. B. Anzeigename („Display name“), ggf. E-Mail-Adresse, Profilbild (optional), bevorzugte Sprache
- Meeting-Metadaten: z. B. Datum, Uhrzeit, Meeting-ID, Telefonnummern, Ort
- Text-, Audio- und Videodaten: Sie haben ggf. die Möglichkeit, in einem „Online-Meeting“ die Chatfunktion zu nutzen. Insoweit werden die von Ihnen gemachten Texteingaben verarbeitet, um diese im „Online-Meeting“ anzuzeigen. Um die Anzeige von Video und die Wiedergabe von Audio zu ermöglichen, werden entsprechend während der Dauer des Meetings die Daten vom Mikrofon Ihres Endgeräts sowie von einer etwaigen Videokamera des Endgeräts verarbeitet. Sie können die Kamera oder das Mikrofon jederzeit selbst über die „Microsoft Teams“-Applikationen abschalten bzw. stummstellen.

Die Chatinhalte werden bei der Verwendung von Microsoft Teams protokolliert. Dateien, die Benutzer in Chats freigeben, werden im OneDrive for Business-Konto des Benutzers gespeichert, der die Datei freigegeben hat. Die Dateien, die Teammitglieder in einem Kanal freigeben, werden auf der SharePoint-Website des Teams gespeichert.

Soweit personenbezogene Daten von Beschäftigten verarbeitet werden, ist § 26 BDSG die Rechtsgrundlage der Datenverarbeitung. Sollten im Zusammenhang mit der Nutzung von „Microsoft Teams“ personenbezogene Daten nicht für die Begründung, Durchführung oder Beendigung des Beschäftigungsverhältnisses erforderlich, gleichwohl aber elementarer Bestandteil bei der Nutzung von „Microsoft Teams“ sein, so ist Art. 6 Abs. 1 lit. f) DSGVO die Rechtsgrundlage für die Datenverarbeitung. Unser Interesse besteht in diesen Fällen an der effektiven Durchführung von „Online-Meetings“.

Im Übrigen ist die Rechtsgrundlage für die Datenverarbeitung bei der Durchführung von „Online-Meetings“ Art. 6 Abs. 1 lit. b) DSGVO. Eine Aufzeichnung von Online-Meetings erfolgt ausschließlich dann, wenn wir Sie hierüber im Voraus informiert haben und Sie der Aufzeichnung zugestimmt haben. Die Rechtsgrundlage ist in diesem Fall Art. 6 Abs. 1 lit. a DSGVO.

Personenbezogene Daten, die im Zusammenhang mit der Teilnahme an „Online-Meetings“ verarbeitet werden, werden grundsätzlich nicht an Dritte weitergegeben, sofern sie nicht gerade zur Weitergabe bestimmt sind. Beachten Sie bitte, dass Inhalte aus „Online-Meetings“ wie auch bei persönlichen Besprechungstreffen häufig gerade dazu dienen, um Informationen mit Kunden, Interessenten oder Dritten zu kommunizieren und damit zur Weitergabe bestimmt sind.

Weitere Empfänger: Der Anbieter von „Microsoft Teams“ erhält notwendigerweise Kenntnis von den o.g. Daten, soweit dies im Rahmen unseres Auftragsverarbeitungsvertrages mit „Microsoft Teams“ vorgesehen ist.

Eine Datenverarbeitung außerhalb der Europäischen Union (EU) erfolgt grundsätzlich nicht, da wir unseren Speicherort auf Rechenzentren in der Europäischen Union beschränkt haben. Wir können aber nicht ausschließen, dass das Routing von Daten über Internetserver erfolgt, die sich außerhalb der EU befinden. Dies kann insbesondere dann der Fall sein, wenn sich Teilnehmende an „Online-Meeting“ in einem Drittland aufhalten.

Da Microsoft seinen Sitz in den USA hat, haben wir mit Microsoft einen Auftragsverarbeitungsvertrag geschlossen, der den Anforderungen von Art. 28 DSGVO entspricht. Ein angemessenes Datenschutzniveau ist zum einen durch den Abschluss der sog. EU-Standardvertragsklauseln garantiert. Als ergänzende Schutzmaßnahmen haben wir ferner unsere Konfiguration so vorgenommen, dass für die Durchführung von „Online-Meetings“ nur Rechenzentren in der EU, dem EWR bzw. sicheren Drittstaaten wie z.B. Kanada oder Japan genutzt werden.

Weitere Informationen finden Sie im Datenschutzhinweis von Microsoft: <https://privacy.microsoft.com/de-de/privacystatement>
www.microsoft.com/de-de/trust-center

Die Daten sind während des Transports über das Internet jedoch verschlüsselt und somit vor einem unbefugten Zugriff durch Dritte

gesichert.

Wir löschen personenbezogene Daten grundsätzlich dann, wenn kein Erfordernis für eine weitere Speicherung besteht. Ein Erfordernis kann insbesondere dann bestehen, wenn die Daten noch benötigt werden, um vertragliche Leistungen zu erfüllen, Gewährleistungs- und ggf. Garantieansprüche prüfen und gewähren oder abwehren zu können. Im Falle von gesetzlichen Aufbewahrungspflichten kommt eine Löschung erst nach Ablauf der jeweiligen Aufbewahrungspflicht in Betracht.

2. Zoom

Wir nutzen das Tool Zoom (Zoom Video Communications, Inc., 55 Almaden Blvd, Suite 600, San Jose, Kalifornien, USA) um Telefonkonferenzen, Online-Meetings, Videokonferenzen, Webinare oder andere Veranstaltungen durchzuführen. Wenn wir Online-Veranstaltungen aufzeichnen wollen, werden wir Ihnen das vorab transparent mitteilen und – soweit erforderlich – um eine Zustimmung bitten. Die Tatsache der Aufzeichnung wird Ihnen zudem in der Zoom-App angezeigt. Wenn es für die Zwecke der Protokollierung von Ergebnissen eines Online-Meetings erforderlich ist, werden wir die Chatinhalte protokollieren. Das wird jedoch in der Regel nicht der Fall sein. Im Falle von Webinaren können wir für Zwecke der Aufzeichnung und Nachbereitung von Webinaren auch die gestellten Fragen von Webinar-Teilnehmenden verarbeiten. Bei der Nutzung von Zoom werden verschiedene Datenarten verarbeitet. Der Umfang der Daten hängt dabei auch davon ab, welche Angaben zu Daten Sie vor bzw. bei der Teilnahme an einer Online-Veranstaltung machen. Folgende personenbezogene Daten sind Gegenstand der Verarbeitung:

- Benutzerangaben: Vorname, Nachname, Telefon (optional), E-Mail, Passwort (falls SSO nicht verwendet wird), Profilbild (optional), Abteilung (optional)
- Meeting-Metadaten: Thema, Beschreibung (optional), Teilnehmer-IP-Adressen, Geräte- /Hardware-Informationen
- bei Cloudaufzeichnungen (optional): Mp4 von allen Video-, Audio- und Präsentationen, M4A von allen Audioaufnahmen, Textdatei von allen in Meeting-Chats, Audio-Protokolldatei
- IM-Chat-Protokolle

- Telefonie-Nutzungsdaten (optional): Call In-Nummer, Call Out-Nummer, Ländername, IP-Adresse, 911-Adresse (registrierte Dienstadresse), Start- und Endzeit, Host-Name, Host-E-Mail, MAC-Adresse des verwendeten Geräts
- Text-, Audio- und Videodaten: Sie haben ggf. die Möglichkeit, in einem „OnlineMeeting“ die Chat-, Fragen- oder Umfragefunktionen zu nutzen. Insoweit werden die von Ihnen gemachten Texteingaben verarbeitet, um diese im „Online-Meeting“ anzuzeigen und ggf. zu protokollieren. Um die Anzeige von Video und die Wiedergabe von Audio zu ermöglichen, werden entsprechend während der Dauer des Meetings die Daten vom Mikrofon Ihres Endgeräts sowie von einer etwaigen Videokamera des Endgeräts verarbeitet. Sie können die Kamera oder das Mikrofon jederzeit selbst über die Zoom-Applikationen abschalten bzw. stummstellen Standortdaten.

Um an einer Online-Veranstaltung teilzunehmen bzw. den „Meeting-Raum“ zu betreten, müssen Sie zumindest Angaben zu Ihrem Namen machen. Die Datenverarbeitung erfolgt nach Art. 6 Abs. 1 S. 1 lit. b DSGVO. Eine Aufzeichnung von Online-Meetings erfolgt ausschließlich dann, wenn wir Sie hierüber im Voraus informiert haben und Sie der Aufzeichnung zugestimmt haben. Die Rechtsgrundlage ist in diesem Fall Art. 6 Abs. 1 lit. a DSGVO. Ihre personenbezogenen Daten, die im Zusammenhang mit der Teilnahme an unseren Online-Veranstaltungen verarbeitet werden, werden grundsätzlich nicht an Dritte weitergegeben, sofern sie nicht gerade zur Weitergabe bestimmt sind. Der Dienstleister Zoom erhält notwendigerweise Kenntnis von den o.g. Daten, soweit dies im Rahmen unseres Auftragsverarbeitungsvertrages mit ihm vorgesehen ist. Wenn Sie bei Zoom als Benutzer registriert sind, dann können Berichte über Online-Veranstaltungen (Meeting-Metadaten, Daten zur Telefoneinwahl, Fragen und Antworten in Webinaren, Umfragefunktion in Webinaren) bis zu einem Monat bei Zoom gespeichert werden. Ferner behält sich Zoom vor, Ihre Daten mit Ihrer Zustimmung an Dritte weiterzugeben. Da Zoom seinen Sitz in den USA hat, haben wir mit Zoom einen Auftragsverarbeitungsvertrag geschlossen, der den Anforderungen von Art. 28 DSGVO entspricht. Ein angemessenes Datenschutzniveau ist zum einen durch den Abschluss der sog. EU-Standardvertragsklauseln garantiert. Als ergänzende Schutzmaßnahmen haben wir ferner unsere Zoom-Konfiguration so vorgenommen, dass für die Durchführung von „Online-Meetings“ nur

Rechenzentren in der EU, dem EWR bzw. sicheren Drittstaaten wie z.B. Kanada oder Japan genutzt werden. Weitere Informationen finden Sie im Datenschutzhinweis von Zoom: <https://zoom.us/dede/privacy.html>.

Hinweis für die Einladungs-Mail: „Informationen finden Sie unter Datenschutz unter dem Punkt Kontakt/Videokonferenzen.“
