We also use technical and operational security measures to protect personal data against accidental or intentional manipulation, loss, destruction or access by unauthorised persons. We regularly review and modernise these precautions.

Do we share data?

If you have given your consent or we are otherwise legally authorized to do so, we will pass on your personal data to service providers (e.g., hosting, marketing, sales partners, payment service providers) for the above-mentioned purposes. In such cases, we comply with the legal requirements and, in particular, conclude appropriate contracts or agreements with the recipients of your data to protect your data.

We transfer personal data to other companies within our group of companies or grant them access to this data for administrative purposes. This transfer of data is based on our legitimate business and economic interests or takes place if it is necessary to fulfill our contractual obligations or if the consent of the data subjects or legal permission has been obtained.

Do we transfer data to third countries?

In order to use our digital services, it may be necessary to transfer certain personal data to third countries, i.e. countries where the GDPR does not apply. However, we only allow your data to be processed in a third country if the specific requirements of Art. 44 ff. These measures

ensure the confidentiality, integrity, availability, and resilience of your data. This includes, among other things, the use of recognized encryption methods (SSL or TLS) and pseudonymization.

However, we would like to point out that, due to the structure of the Internet, it is possible that the rules of data protection and the above-mentioned security measures may not be observed by other persons or institutions outside our area of responsibility. In particular, unencrypted data disclosed, e.g., by email, may be read by third parties. We have no technical influence on this.

In addition, we may retain your data until the expiry of the statutory limitation periods (i.e., usually 3 years, but in individual cases up to 30 years) if this is necessary for the assertion, exercise, or defense of legal claims. After that, the relevant data will be deleted.

How we make our content available to you

Cookies and similar technologies

We use cookies and similar technologies to provide you with the best experience when using our digital offerings. We use them to ensure functionality, IT security, and fraud prevention.

If cookies, device identifiers, or other personal data are stored or accessed on your device for processing purposes, this is done on one of the legal bases set out in Art. 6 GDPR.

In order to be able to provide the telemedia service you have expressly requested, we also take into account the provisions of Section 25 of the German Telecommunications Digital Services Data Protection Act (TDDDG), in particular the requirement under Section 25 (2) No. 2 TDDDG.

Types and functions of cookies

Cookies are text files that contain data from visited websites or domains and are stored by a browser on users' devices. A cookie primarily serves to store information about a user during or after their visit to an online offering. The stored information may include, for example, language settings on a website, login status, a shopping cart, or video interactions. The term “cookies” also includes other technologies that perform the same functions as cookies (e.g., when user information is stored using pseudonymous online identifiers, also known as “user IDs”).

There are the following types of cookies and functions:

- **Temporary cookies (also known as session cookies):** Temporary cookies are deleted at the latest after a user leaves an online offering and closes their browser.
- **Permanent cookies:** Permanent cookies remain stored even after the browser is closed. This allows, for example, the login status to be saved or preferred content to be displayed directly when the user visits a website again. Similarly, the interests of users, which are used for reach measurement or marketing purposes, can be stored in such a cookie.
- **First-party cookies:** First-party cookies are set and used by us to process user information.
- **Third-party cookies:** Third-party cookies are mainly used by advertisers (so-called third parties) or other partners to process user information.
- **Strictly necessary (also: essential or necessary) cookies:** These cookies ensure functions without which these digital offerings could not be used as desired. They may be absolutely necessary for the operation of a website, for example to store logins or other user entries, or for security reasons.
- **Analysis and statistics cookies:** These cookies enable us to analyze the use of our digital offerings, in particular to measure reach—i.e., clicks, visits, and visitor numbers. The aim is to statistically determine the number of visits and visitors and their surfing behavior (duration, origin) and thus obtain market-wide comparable values. The information collected is evaluated in aggregate form in order to derive improvements and optimizations for our products.
- **Marketing and personalization cookies:** Cookies are also used to store a user's interests or behavior (e.g., viewing certain content, using functions, etc.) in a user profile. Such profiles are used, for example, to display content to users that corresponds to their potential interests. This process is also referred to as “tracking,” i.e., tracking the potential interests of users. If we use cookies or tracking technologies, we will provide separate information about this in our privacy policy or when obtaining consent.

Technical provision and security

When our offer is used, we automatically employ essential technologies and process the following information:

- Information about the accessing device and the software used
- Date and time of access
- Websites from which the user accesses our website or which the user visits via our website
- IP address

The collection of these logs and their temporary storage and processing are necessary to ensure system security and integrity (in particular to ward off and defend against attempts at attack or damage) and are carried out in accordance with our legitimate interest (§ 25 (2) No. 2 TDDDG, Art. 6 (1) f GDPR).

The storage period for this log data is usually seven days; for reliable detection of AI bots, it is 30 days. From this point on, this specific server log data is anonymized based on our legitimate interest in statistical evaluation to assess AI bots and their impact on our content (Art. 6 (1) f GDPR).

The legal basis for the aforementioned data processing is our legitimate interest pursuant to Art. 6 para. 1 sentence 1 lit. f) GDPR.

Essential technology

The following tools and cookies are strictly necessary technologies, i.e., essential for providing our services as requested by the user.

The legal basis for the data processing described below is our legitimate interest pursuant to Art. 6 (1) (f) GDPR.

Compliance

In order to obtain and store your data protection consent, we use Compliance (Compliance BV, CoC 717814475, Kalmarweg 14-5, 9723 JG, Groningen (NL)). This sets unconditionally necessary cookies, in order to check the consent status and to play out corresponding content.

The cookies are stored and deleted at the latest after 13 months.

The legal basis for the aforementioned data processing procedures is our legitimate interest pursuant to Art. 6 Abs. 1 S. 1 lit. f) DSGVO.

Adobe Typekit Web Fonts

We use Adobe Typekit from Adobe for standardised presentation. The provider is Adobe Systems Incorporated, 345 Park Avenue, San Jose, CA 95110-2704, USA (Adobe).

When you access this website, your browser loads the required fonts directly from Adobe in order to display them correctly on your device. In doing so, your browser establishes a connection to Adobe's servers in the USA. This gives Adobe knowledge that this website has been accessed via your IP address. No cookies are stored when the fonts are provided.

The legal basis for this data processing is your consent (Art. 6 para. 1 sentence 1 lit. a) GDPR). Consent can be revoked at any time.

Data transfer to the USA is based on the existing adequacy decision and the standard contractual clauses of the EU Commission. Adobe is certified in accordance with the "EU-US Data Privacy Framework" (DPF). The DPF is an agreement between the European Union and the USA that is intended to ensure compliance with European data protection standards for data processing in the USA. Every company certified under the DPF undertakes to comply with these data protection standards. Further information on this can be obtained from the provider at the following link <https://www.dataprivacyframework.gov/s/participant-search/participant-detail?contact=true&id=a2zt0000000TNo9AAG&status=Active>

Die HCS Medienwerk GmbH verwendet die „Lead Ads“-Funktion von **Meta Platforms Ireland Limited**, um bestimmte personenbezogene Daten von Interessenten über die jeweiligen Kontaktformulare auf Facebook zu erfassen. Welche spezifischen Daten abgefragt werden, richtet sich nach den Anforderungen der jeweiligen Lead-Kampagne. Die Verarbeitung der Daten ist an die Ziele der jeweiligen Kampagne gebunden, die im Kontaktformular klar angegeben werden, bevor die Daten übermittelt werden.

Die Datenverarbeitung basiert auf Ihrer ausdrücklichen Einwilligung gemäß Art. 6 Abs. 1 lit. a DSGVO.

Ihre Daten werden nur im Rahmen des Bewerbungsprozesses und ausschließlich zum Zweck der Auswahl von Bewerbern weitergegeben. Die über das Kontaktformular übermittelten Daten können auch auf den Servern von Meta Platforms, Inc. in den USA gespeichert werden.

How we optimize our products

Usage analysis

We want to continuously develop and improve our products. To do this, we need to analyze usage. This serves to evaluate visitor traffic to our digital offerings and may include behavior, interests, or demographic information about visitors, such as age or gender, as pseudonymous values. With its help, we can see, for example, when our digital offerings are used most frequently or which functions are popular. This enables us to identify areas that need optimization.

In addition to usage analysis, we also use testing procedures to test different versions of our digital offerings or their components, for example, and to increase certain user actions or reactions if necessary.

For these purposes, profiles, i.e., data summarized for a usage process, are created and information is stored in a browser or on a terminal device and read from it. The information collected includes, in particular, websites visited and elements used there, as well as technical information such as the browser used, the computer system used, and information on usage times.

The IP addresses of users are also stored. We use an IP masking procedure (i.e., pseudonymization by shortening the IP address) for your protection. In general, no clear data of users (such as email addresses or names) is stored in the context of web analysis, A/B testing, and optimization, but rather pseudonyms, so that neither we nor the providers of the software used, who act as processors for us, know the actual identity of the users.

Google Analytics

Wir verwenden Google Analytics (Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Irland) zur Messung und Analyse der Nutzung unseres Onlineangebotes auf der Grundlage einer pseudonymen Nutzeridentifikationsnummer. Diese Identifikationsnummer enthält keine eindeutigen Daten, wie Namen oder E-Mail-Adressen. Sie dient dazu, Analyseinformationen einem Endgerät zuzuordnen, um zu erkennen, welche Inhalte die Nutzer innerhalb eines oder verschiedener Nutzungsvorgänge aufgerufen haben, welche Suchbegriffe sie verwendet haben, diese erneut aufgerufen haben oder mit unserem Onlineangebot interagiert haben. Ebenso werden der Zeitpunkt der Nutzung und deren Dauer gespeichert, sowie die Quellen der Nutzer, die auf unser Onlineangebot verweisen und technische Aspekte ihrer Endgeräte und Browser. Dabei werden pseudonyme Profile von Nutzern mit Informationen aus der Nutzung verschiedener Geräte erstellt, wobei Cookies eingesetzt werden können. Google Analytics protokolliert und speichert keine individuellen IP-Adressen für EU-Nutzer. Analytics stellt jedoch grobe geografische Standortdaten bereit, indem es die folgenden Metadaten von IP-Adressen ableitet: Stadt (und der abgeleitete Breiten- und Längengrad der Stadt), Kontinent, Land, Region, Subkontinent (und ID-basierte Gegenstücke). Beim EU-Datenverkehr werden die IP-Adressdaten ausschließlich für diese Ableitung von Geolokalisierungsdaten verwendet, bevor sie sofort gelöscht werden. Sie werden nicht protokolliert, sind nicht zugänglich und werden nicht für weitere Verwendungszwecke genutzt. Wenn Google Analytics Messdaten sammelt, werden alle IP-Abfragen auf EU-basierten Servern durchgeführt, bevor der Verkehr zur Verarbeitung an Analytics-Server weitergeleitet wird.

Die Speicherdauer der Daten beträgt 14 Monate (betrifft Daten auf Nutzer- und Ereignissebene). Aggregierte Daten sind anonymisiert und werden nicht gelöscht.

Google ist unser Auftragsverarbeiter, mit dem wir die dazu erforderlichen Vereinbarungen geschlossen haben. Wir haben zudem Maßnahmen ergriffen, um geeignete und angemessene Garantien zum Schutz der personenbezogenen Daten beim Drittlanddatentransfer sicherzustellen, indem wir EU-Standardvertragsklauseln abgeschlossen haben und bei Bedarf zusätzliche Maßnahmen zum Schutz der Betroffenenrechte beachten.

The legal basis for data processing is your consent in accordance with Art. 6 para. 1 lit. a) GDPR.

When you contact us

Contacting us

When you contact us, we only collect personal data (e.g. name, e-mail address, telephone number) if you provide it to us voluntarily. This information is expressly provided on a voluntary basis. The purpose of processing your data is to process and respond to your enquiry. This is also our legitimate interest in data processing in accordance with Art. 6 para. 1 sentence 1 lit. f) GDPR.

In the case of a telephone enquiry, your data will also be processed by telephone applications and in some cases also via a voice dialogue system in order to support us in the distribution and processing of enquiries.

We will delete your data that we have received in the course of contacting you as soon as your request has been fully processed and no further communication with you is required or requested by you.

This data includes the total number of page views, page activities and data and interactions provided by visitors. This data is processed and made available by the social networks. We have no influence on the generation and presentation of this data.

Your personal data is also processed for market research and advertising purposes. This allows, among other things, adverts to be placed within and outside the platforms that presumably correspond to your interests. Cookies are usually stored on your computer for this purpose. Irrespective of this, data that is not collected directly from your end devices may also be stored in your user profiles. We do not collect or process any other personal data.

The processing of your personal data by us is based on your consent in accordance with Art. 6 para. 1 sentence 1 lit. a) GDPR.

As we do not have full access to your personal data, you should contact the social media providers directly when asserting your rights as a data subject, as they have access to the personal data of their users and can take appropriate measures and provide information.

Should you nevertheless require assistance, we will of course endeavour to support you. You can find our contact details [here](#).
